

# Younger Furniture – Fabric Care Guidelines

## **How should I clean my Younger Furniture?**

The proper cleaning procedure for your furniture depends on the fabric content and is indicated by the Cleaning and Wearability Code in your fabric description, which can be found on the label. The Cleaning and Wearability Code is the last portion of the Fabric Description and may be “S,” “W,” or “WS.”

### **Cleaning Code S:**

Clean only with dry cleaning solvent. Do not saturate. Do not use water. Pile fabrics may require brushing to restore appearance. Cushion covers should not be removed for commercial or at home dry cleaning.

### **Cleaning Code W:**

Clean only with water based shampoo or foam upholstery cleaner. Do not over wet. Do not use solvents to spot clean. Pile fabrics may require brushing to restore appearance. Cushion covers should not be removed and laundered.

### **Cleaning Code WS:**

Clean with shampoo, foam or dry cleaning solvents. Do not saturate with any liquid. Pile fabrics may require brushing to restore appearance. Cushion covers should not be removed and laundered.
